

Subject number [1]

Site [2]

Initials [3]

Date of birth day [4] month [5] year [6]

Pathologist [7]

Histology Reference Number [8]

Gross Description

Type of Operation [9]

Site of Tumour [10]

Maximum Tumour Diameter mm [11]

Distance of tumour to nearer margin (cut end) mm [12]

Grade of mesorectal resection

- Muscularis Propria [13]
- Intramesorectal [14]
- Mesorectal [15]
- Not Applicable [16]

Grade of anal canal resection

- Intrasphincteric [17]
- On Sphincters [18]
- Levator Excision [19]
- Not Applicable [20]

Grade of colonic resection

- Muscularis Propria [21]
- Intramesocolic [22]
- Mesocolic [23]
- Not Applicable [24]

Measurement of distance between closest tied mesorectal/colic vessel and primary cancer

mm [25]

Tumour Quadrant

Tumour involves

- Anterior quadrant [26]
- Posterior quadrant [27]
- Left quadrant [28]
- Right quadrant [29]
- Circumferential [30]
- Not Applicable [31]

Tumour Peritoneal reflection

Tumour

- below peritoneal reflection [32]
- at peritoneal reflection [33]

[continued..](#) ▶

[.continued](#)

- above peritoneal reflection [34]
- Not Applicable [35]

Tumour colonic

- Yes [36]
- No [37]

Histology Type

Adenocarcinoma

(to include mucinous and signet ring adenocarcinomas)

- Yes [38]
- No [39]

If No, Other

 [40]

Differentiation by predominant area

- Poor [41]
- Other [42]

Local Invasion

- Submucosa (pT1) [43]
- Muscularis propria (pT2) [44]
- Beyond muscularis propria (pT3) [45]
- Tumour cells have breached the peritoneal surface (pT4) [46]
- or invaded adjacent organs (pT4) [47]
- Perforated tumour [48]

Metastatic Spread

Number of lymph nodes examined

 [49]

Number of positive lymph nodes

 [50]

Apical node positive (Dukes' C2)

- Yes [51]
- No [52]

Extramural vascular invasion

- Yes [53]
- No [54]

Adenoma(s)

- Yes [55]
- No [56]

Synchronous carcinoma(s)

- Yes [57]
- No [58]

Complete a separate form for each cancer

Ulcerative Colitis

- Yes [59]
- No [60]

Crohn's disease

- Yes [61]
- No [62]

Familial adenomatous polyposis

- Yes [63]
- No [64]

Other Comments

 [65]

Margins

Tumour Involvement

Donut

- Yes [66]
- No [67]
- Not applicable [68]

Margin (cut end)

- Yes [69]
- No [70]
- Not applicable [71]

Retroperitoneal margin

- Yes [72]
- No [73]
- Not applicable [74]

Histological measurement from tumour to CRM/Retroperitoneal margin (Enter NA if Not Applicable)

mm [75]

Maximum distance of spread of tumour from muscularis propria (Enter NA if Not Applicable)

mm [76]

Pathological Staging

Regression grading if post neoadjuvant therapy

- No Regression [77]
- Mild Regression [78]
- Moderate Regression [79]
- Marked Regression [80]
- Complete Response [81]
- Not Applicable [82]

Complete resection at all margins (>1mm)

- Yes (R0) [83]
- No (R1) [84]

Staging

T Stage

- 0 [85]
- 1 [86]
- 2 [87]
- 3 [88]
- 4 [89]
- x [90]

N Stage

- 0 [91]
- 1 [92]
- 2 [93]
- 3 [94]
- 4 [95]
- x [96]

M Stage

- 0 [97]
- 1 [98]
- x [99]

Dukes'

- No Tumour [100]
- Dukes A (Growth limited to wall, nodes negative) [101]
- Dukes B (Growth beyond M. propria, nodes negative) [102]
- Dukes C1 (Nodes positive and apical node negative) [103]
- Dukes C2 (Apical node positive) [104]

Histologically confirmed liver metastases

- Yes [105]
- No [106]

Snomed Code

[107]
