

Topics covered in annual liver pathology update meetings.

- PowerPoint presentations.

Each year the meeting includes

- a summary of items of interest to pathologists from the AASLD meeting – Rob Goldin.
- The International Liver Study Group ('Gnomes') meets annually to discuss an area of liver pathology; a summary of these meetings provided by one of the Gnomes (usually Stefan Hubscher) is included in the annual update meeting.
- The cases from the two circulations of the Liver EQA Scheme are presented and discussed, and the scoring arrangements agreed at the update meeting.

In addition, most of the lectures are available on the website, listed here :

2020 - Zoom meeting	Presentations by Leads of BASL Special Interest Groups (SIG)	
	Will Alazawi	NAFLD SIG
	Eileen Marshall	HCC UK: Why ,Who and What?
	Palak Trivedi	Immunie SIG
	Shahid Khan	Cholangiocarcinoma -UK
2019 - Cambridge (includes video recorded presentations)	Stefan Hubscher	Gnomes meeting 2019 - Primary malignant epithelial neoplasms of the liver
	Judy Wyatt	Liver pathology datasets and pathways - where have we got to?
	Rob Goldin	What's new in inflammatory liver disease?
	Adrian Bateman	IgG4 related disease in the HBP tract - the role of biopsy
	George Mells and Anna Paterson	Autoimmune liver disease - problematic areas of AIH and PBC, with clinical update and case presentations
2018 - London (joint meeting with BDIAP) (includes video recorded presentations)	Dina Tiniakos	Hepatocellular neoplasia - recent developments
	Sue Davies	Diagnosing vascular disease in the liver (masterclass during EQA)
	Steve Ryder and Philip Kaye	Hepatitis B and C - when and why to biopsy in the era of new treatments - clinical update and case presentations.
	Stefan Hubscher	Gnomes meeting 2018 - Drug induced liver injury
	Dina Tiniakos	Primary biliary cholangitis - variant synromes and BSG guidelines (masterclass during EQA)
	Tim Kendall	HCC- steatohepatitic type and treatment responses (masterclass during EQA)
2017 - Oxford (includes video recorded presentations)	Philip Kaye	Drug induced liver injury - DILI
	Alison Winstanley	Angiomyolipoma (masterclass during EQA)
	Rachel Brown	Liver disease affecting children and teenagers with transition into adult care
	Stefan Hubscher	Gnomes meeting 2017 - vascular liver pathology (non-neoplastic).

	Alberto Quaglia	Additional stains in diagnosing biliary disease (masterclass during EQA)
2016 – Cheltenham (includes video recorded presentations)	Alberto Quaglia	Pathology of acute liver failure
	Rob Goldin	New insights into fatty liver disease
	Alberto Quaglia	Diagnosis of focal benign hepatocellular lesions (masterclass during EQA)
	Stefan Hubscher	Fibrolamellar carcinoma v. conventional HCC (masterclass during EQA)
	Asha Dube	Role of liver biopsy in assessing disease severity in autoimmune hepatitis
	Stefan Hubscher	Gnomes meeting 2016 – patterns of acute liver injury.
	Rob Goldin	Approach to fatty liver disease within it's combined with another disease (masterclass during EQA)
2015 – Harrogate	Chris Bellamy	Liver biopsy in systemic disease
	Rob Goldin	Alcoholic hepatitis – what did we learn from Stopah? – and highlights from the AALSD meeting
	Dina Tiniakos	What's hot in liver pathology 2015
	Malcolm Alison	Recent advances in liver regeneration – morphological insights for Histopathologists
	Stefan Hubscher	Gnomes meeting 2015 – acute hepatitis and acute liver failure
	Richard Colling	Liver biopsy audit template – for Clinicopathological correlation
2014 – Stratford upon Avon	Chris Bellamy	Update on hepatitis E
	Dina Tiniakos	What's hot in liver pathology in 2014?
	Sue Davies	Assessing liver biopsies with more than one diagnosis
	Stefan Hubscher	Gnomes meeting 2014 – well differentiated hepatocellular lesions
2013 London	Chris Bellamy	Benign hepatocellular lesions
	Stefan Hubscher and Alastair Burt	Pathological assessments in HCC. Gnomes 2013 – HepaLUMPs down under.
	Yoh Zen	IgG4 disease in liver and biliary tract
	Paul Dhillon	Measuring steatosis
	Graham Foster	New horizons in viral hepatitis – and what will this mean for staging biopsies?
2012 Leeds	Stefan Hubscher	Update on NAFLD
	Tony Nicholson	RCR UK wide liver biopsy audit
	Alastair Burt	Gnomes meeting 2012 – simple classification of sinusoidal lesions
	Sue Davies	Liver transplant pathology for the non-specialist

2011 Southampton	Stefan Hubscher	The role of liver biopsy in AIH, PBC and PSC
	Alastair Burt	Gnomes meeting 2011 – sinusoidal lesions
	Chris Bellamy	Liver adenoma v hepatocellular carcinoma
2010 Dundee	Alastair Burt	Early hepatocellular carcinoma – pathology and diagnosis
	Stefan Hubscher	Non-citthotic portal hypertension and incomplete septal cirrhosis
	Judy Wyatt	Cholangiocarcinoma
	Alastair Burt	Biliary mass lesions (Gnomes update)
	Alberto Quaglia	Liver cell adenomas
	Chris Bellamy	Literature update: medical liver diseases
2009 London – inflammatory and infectious conditions	Jo Lloyd	Hepatitis A and E
	Paul Dhillon	Hepatitis B and D
	Judy Wyatt	Hepatitis C
	Chris Bellamy	Other viral infections of the liver
	Bernard Portmann	PBC and its variants
	Alberto Quaglia	Biliary infections
	Stefan Hubscher	Post liver transplant infections
	Rob Goldin	Liver in HIV
	Alastair Burt	Auto-immune hepatitis
	Sebastian Lucas	Bacterial and parasitic infection of the liver
	Adrian Bateman	The liver in systemic inflammatory disease
