

The Royal College of Pathologists

Pathology: the science behind the cure

**FRCPath Part 2 in Histopathology Autumn 2010
Surgical Pathology Section
Wednesday 9am-12.40pm**

You are provided with 2 cases in each 20 minute station, which must be passed on promptly. For each case, you are given a single H&E stained section and brief clinical details.

You should provide a written report to the requesting clinician including a description and diagnosis incorporating clinical comment.

You may suggest additional investigations as appropriate.

During the mid session break you may continue to write but may not view slides or speak to other candidates
