Non-standard scanning requirements

Please write additional requirements in this box (additional charges may apply)

Note that standard slide scanning requests need not use this section

Terms and conditions

Slides must be cleaned and anonymised prior to submitting for scanning. We will return unsuitable slides without scanning them. This may be subject to a handling fee.

The cost advertised for scanning includes one guaranteed year on our digital slide servers. Extensions to this period are subject to the discretion of the server administrators.

Our website makes use of HTML5 scripting which requires modern browser versions and JavaScript to be enabled. Restricted bandwidth and slow PCs can affect the virtual slide viewing experience.
